

Occupancy Sensors Deliver Hands-Free Switching, Convenience and Energy Savings

Equipped with passive infrared (PIR) sensing technology, these versatile, top-quality devices turn lights ON when a person enters a room and OFF when they leave – automatically. That saves energy, provides convenience and lowers electrical bills.

FEATURES AND BENEFITS:

PR180 and PR150

- Adjustable time-delay interval (15 seconds - 15 minutes)
- Ambient-light override prevents lights from being turned on when there is sufficient daylight
- Delayed-OFF adjustment to set how long lights stay on when a room is left unoccupied
- Manual override to use as a standard ON/OFF switch, when desired
- Elegant Decora® designer styling harmonizes with any interior
- Available in Ivory, White and Almond

PR180 Only

- 180° field of view is approximately 20 feet wide by 20 feet deep, covering over 600 square feet
